

**Energy from Experience**

Argentina Lithium & Energy is focused on acquiring high-quality lithium projects in Argentina and advancing them towards production to meet the growing global demand from the battery sector. The Company's management group has a long history of success in the resource sector of Argentina with a strong track record of government & community relations.

**SHARE STRUCTURE**

As of December 31, 2023

Issued	131,158,649
Warrants	70,742,737
Options	11,341,000
Fully Diluted	213,242,386

**PARTNERED FOR GROWTH**

For additional details see the original news release dated September 27, 2023

**Invested: US\$90M in ARS\$eq**

**Ownership in LIT: 19.9%** (in Argentina subsidiary with exchange right to LIT shares provided)

**Offtake Guarantee: Up to 15,000tpa over 7 years, extendable**

**MANAGEMENT**

**MR. NIKOLAOS CACOS, M.I.M.**  
President and CEO, Director

**MILES RIDEOUT**  
Vice President Exploration

**CONNIE NORMAN**  
Corporate Secretary

**DARREN C. URQUHART, CPA, CA**  
Chief Financial Officer

**DIRECTORS**

**JOSEPH GROSSO**  
Chairman of the Board and Director

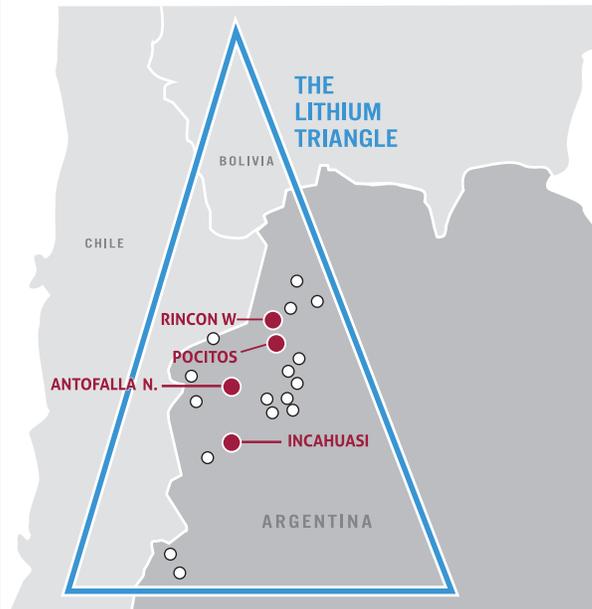

**MR. NIKOLAOS CACOS, M.I.M.**  
Director

**JOHN GAMMON, PH.D.,**  
Director

**MARTIN BURIAN, ICD.D, CPA**  
Director

**DAVID A. TERRY, PH.D., P.GEO**  
Director

**KEY PROJECT HIGHLIGHTS**

- Claims covering +67,000 hectares on 4 salars in the Lithium Triangle.
- Projects strategically located in pro-mining provinces Salta and Catamarca with year-round access & near key infrastructure.
- Aggressive exploration programs including advancing toward first resource estimate at Rincon W.
- Recently completed first drill program at Rincon W returning moderate to high grades of lithium over long intervals, including:
  - 287 to 402 mg/L Li over 258m starting at 83m depth (2 intervals not sampled, 42m & 33m)

● Argentina Lithium Projects ○ Other Lithium Projects

## PROJECTS

Four under-explored projects in the heart of the Lithium Triangle in Argentina.

### RINCON WEST

- >5,000ha (~50% wholly-owned and 50% under option)
- Adjacent to Rio Tinto Ltd. and Argosy Minerals lithium development projects\*
- Excellent infrastructure including international highway, electric power corridor
- 1st drill program completed; results include:
  - 287 to 402 mg/L Li in 258m interval (RW-DDH-009)** (2 intervals not sampled, 42m & 33m) and
  - 329 to 393mg/L Li in 153m interval (RW-DDH-006)** and
  - 334 to 382 mg/L Li in 132m interval (RW-DDH-004)** and
  - 337 to 367 mg/L Li in 123m interval (RW-DDH-002)** (40m not sampled)
- 2<sup>nd</sup> drill program underway + permitting for pump tests

### POCITOS

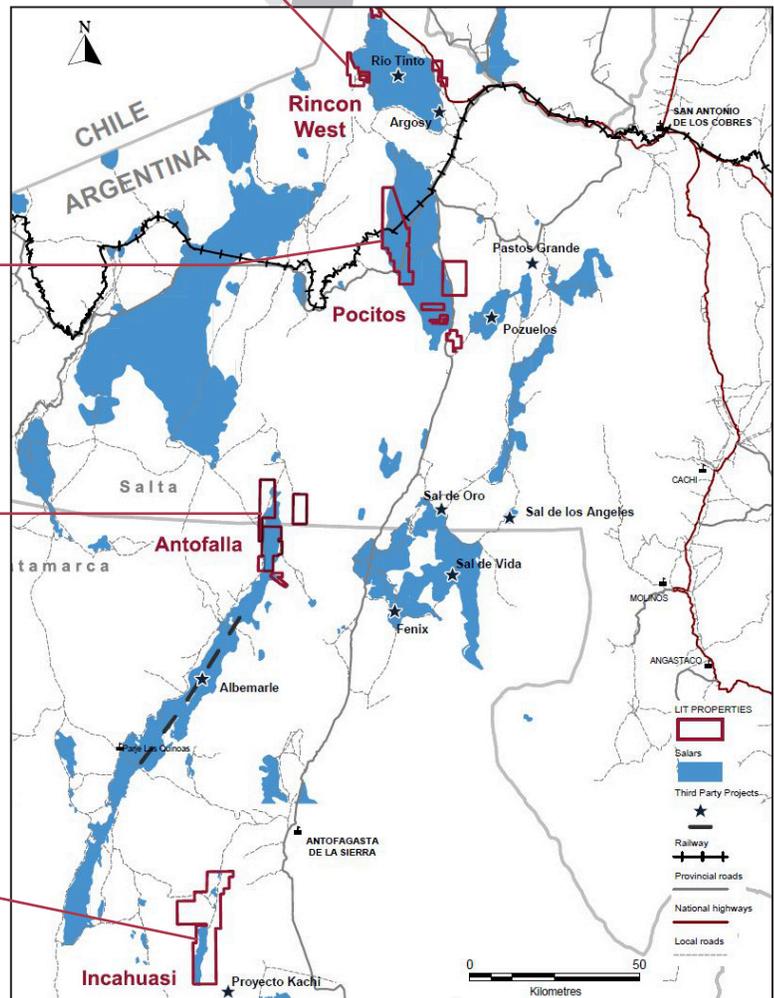

- >26,000 ha (~50% wholly-owned and 50% under option)
- Excellent infrastructure: International railway to Pacific ports crosses the property; Provincial highway and major gas pipeline nearby
- New 170 line-km TEM survey underway

### ANTOFALLA NORTH

- >10,000ha (Including wholly-owned & under option)
- Major lithium producer Albemarle has large holdings starting 500m to the south\*
- Geophysical survey identified high-conductivity targets in upper 100 metres, additional targets at depth
- 110 line-km TEM survey planned to delineate brine targets, with drilling planned to follow in early 2024 (pending permitting)

### INCAHUASI

- 100% interest in over 25,000 hectares
- Located north of Lake Resources' Kachi Project\*
- Maximum values 409 mg/L lithium and 1.56% potassium recovered in near-surface sampling (to 8m depth)
- 4 drill-holes confirmed lithium-bearing brines (average to date 109 mg/L Li, 6718 mg/L K)

**DISCLAIMER:** This brochure contains forward-looking statements, including but not limited to comments regarding predictions and projections. Forward-looking statements address future events and conditions and therefore involve inherent risks and uncertainties. Actual results may differ materially from those currently anticipated in such statements. This fact sheet has been reviewed and approved by David Terry, Ph.D., P.Ge., a Director of the company and a Qualified Person as defined by NI 43-101. \*Proximity to other mining projects in the area does not provide any assurances with respect to the prospects at the Company's projects.
